THE QUEEN'S JUBILEE

Victoria Has Reigned Over England Sixty Years.

CELEBRATING THE GREAT EVENT.

Appropriate Services Held in All the Churches of England—The Queen Worships at St. George's Chapel in Windsor. Thanksgiving Services Held in Nearly Every Large City in Europe.

LONDON, June 21.—Queen Victoria began the celebration of her jubilee, commemorating the 60th year of her reign, yesterday, as was befitting her entire career, before the altar of her faith. Throughout London, the United Kingdom and the empire, in every cathedral, church or chapel of the established church of England was held services similar to those at St. George's chapel, Windsor, where her majesty paid her devotions and offered solemn thanks to God.

The announcement that the services at St. George's chapel would be private and for the members of the royal family, prevented the gathering of a large crowd. The scene was most impressive and the services were simple. Her majesty sat in the chair of state immediately in front of the communion rail and just beside the brass plate whose inscription designates the spot which was the temporary place of interment of the prince consort.

The ladies and gentlemen who are the grand officers of the queen's household entered first, followed by the military knights of Windsor in the full costume of cock hats and scarlet coats. The Duke of Devonshire and Lord Rosebery occupied their stalls as Knights of the Garter. The rest of the church was empty, the seats of the royal family being near the queen's.

The dean of Windsor, wearing the insignia of chaplain of the Order of the Garter, officiated, assisted by the lord bishop of Barry and several canons.

Punctually at 11 o'clock, amid the soft strains of an organ voluntary, the queen arrived from the cloisters at the entrance. Assisted by her Indian attendant, she walked slowly to the chair of state, the congregation standing. She was dressed all in black, except for a white tuft in her bonnet.

Empress Frederick of Germany, attired in deep black, took the seat at the right of the queen, while the Duke of Connaught, wearing his Windsor uniform, seated himself at her left. The others grouped closely behind and looked very like a simple family of worshippers. Among them were the Duchess of Connaught, Prince Henry of Prussia and Princess Henry, Prince Christian and Princess Christian, with their children, Princess Henry of Battenburg, the Grand Duke Sergius and the grand duchess.

Ordinary morning prayers began with a short exhortation from First Timothy. After the first collect, a special collect was read and instead of the usual prayer for the queen and royal family, two special prayers were substituted.

A special prayer for unity was said, and there special psalms and gospels used instead of those for the day, the gospel being sixteenth verse of the twenty-second chapter of St. Matthew: "Render, therefore, unto Caesar the things which are Caesar's."

There was no sermon, but a special hymn written by the Right Rev. William Walsham, lord bishop of Wakefield, with music by Sir Arthur Sullivan, was sung at her majesty's request.

The choir of St. George's chapel rendered the musical portion of the service, Sir Walter Parrett presiding at the organ. The service lasted 40 minutes, the queen remaining seated throughout and following closely the special prayers and hymn.

At the end there was a pause. The queen, with bowed head, continued in silent prayer. Then followed a touching scene which will ever linger in the memory of those who witnessed it. Summoning Empress Frederick, who bowed low at her side, the queen kissed her on both cheeks. The Duke of Connaught and the others of the family followed, receiving on bended knee a similar token of affection. In many cases the recipient was kissed several times.

The queen was profoundly moved, and tears rolled down her cheeks. At last, and evidently with great reluctance, she beckoned her Indian attendant, and leaning on her arm, passed slowly out of the chapel, the entire congregation standing, the soft light falling through the multi-colored windows and the exquisite strains of the organ rising and swelling beneath the gothic bannered roof. It was a scene never to be forgotten and thrilled all present with strong emotions.

At St. George's chapel, Windsor, in the afternoon, a special musical service was held at which most of the members of the royal family, except the queen and Empress Frederick, who had attended the morning service, were present. Mendelssohn's "Hymn of Praise" was sung by Madame Albani, Edward Lloyd and the choir of the chapel, assisted by the Windsor and Eton choral and Madrigal societies.

Several of the pulpits of the city were occupied by American preachers all of whom alluded in the most feeling terms to the queen's life and character. Bishop Cox, preached at the Windsor parish church and Bishop Whipple at All Saints, Margaret street. Rev. O. W. H. Milburn, chaplain of the United States senate, preached at the Queen's Park Congregational chapel, in the Harrow road.

The morning papers today are wholly devoted to the jubilee special articles, personal memoirs and reminiscences of the queen and the royal family.

STORM DAMAGES.

East Tennessee, Southwest Virginia and Western North Carolina Visited.

KNOXVILLE, June 21.—Reports from upper east Tennessee, southwest Virginia and western North Carolina indicate severe storms during Saturday night and Sunday. A cloudburst just across the state line near Bristol did considerable damage and delayed trains on the Southern road. A trestle was washed away on the Washington and New Orleans road. Two hundred yards of track on the Norfolk and Western road was also displaced.

Throughout upper east Tennessee there has been a general storm with hard winds doing damage to growing corn. Beaver creek, which carried the water of the cloudburst is swollen like a river, and several citizens have vacated their houses.

Growing Crops Damaged.

NEWPORT NEWS, Va., June 21.—A cyclone yesterday wrecked several houses and did much damage to growing crops. Considerable damage also was done to small craft lying at anchor in the James river.

TRAGEDY DUE TO JEALOUSY.

A Husband Shoots His Wife Five Times and Himself Once.

PITTSBURG, June 21.—Word has just reached here of a murder and suicide near Harmarville, a small town on the Pittsburgh and Western railroad about 15 miles from here.

Frank Karns, an employee of the American glue works, has been jealous of his wife for some time, and last week left town, supposedly for Chicago. Their 6-year-old child was left with a relative, Alex Hanna, at Springdale and the wife went to a friend's house to live.

Yesterday Mrs. Karns went to Springdale to visit her child, and as she reached the Hanna house she was met by her husband, who at once commenced shooting, and before he quit, he shot his wife five times and himself once. The bullet Karns put into himself proved fatal in a very short time and the wife can scarcely survive. Karns was 35 years old and his wife 30. No other cause than jealousy is known for the crime.

GLOOMY FOR THE MINERS.

Those in Jackson County, Ohio, Must Face Starvation.

WELLSTON, O., June 21.—The miners of Jackson county are expecting a reduction from 51 cents to 45 cents per ton for mining coal. The Pittsburgh district is paying in the main but 54 cents, and the 9 cents differential in favor of that district reduces this to 45 cents. Should the reduction occur the miners of Jackson county must face starvation. As it is, they have had less than one-third time since last November.

Never in the history of this valley was there such distress as now exists here. Business is depressed, hundreds of men seen idle in the streets daily, and not a ray of hope for the immediate future. It is the impression here that the miners will not accept a reduction. The operators say they concede that the price of digging is now too low, and they will ask for no change unless driven to do so by compulsion.

LIGHTNING'S WEIRD DEED.

An Undertaker Killed While Preparing a Corpse For Burial.

CROOKSVILLE, O., June 21.—Saturday about 1 o'clock J. J. McFarland, a prominent business man of this village, dropped dead on the street from apoplexy. At 5:15, while Undertaker C. W. Watts and David Miller, a barber, were preparing the corpse for burial, lightning struck the house and killed Mr. Miller and Ralph McFarland, the 9-year-old son of Mr. McFarland, and seriously injured Undertaker C. W. Watts. Mr. Watts is expected to recover.

McFarland leaves a wife and nine children; Miller a wife. Mr. Miller has been married only six months, and was preparing to go to housekeeping in a new property within a week.

MYSTERY PARTLY EXPLAINED.

The Corpse of an Indiana Man Found Under a House in Missouri.

LAPORTE, Ind., June 21.—The mystery surrounding the disappearance of Jacob Foster of Three Oaks has been solved by the finding of his body under the house at Greensburg, Mo., occupied by the Castle family, former Indiana residents, who emigrated to Missouri before Foster's strange disappearance.

Charles Castle, who was under suspicion for the murder, committed suicide, and the Porter county authorities have been advised that Esther Castle has been arrested as an accomplice. Foster disappeared a number of years ago.

Man and Five Children Burned.

BUFFALO, June 21.—Fire last night partly destroyed the home of Melenski, in East Buffalo, and his five children were frightfully burned. Sophie, aged 10, died in the hospital after a few hours suffering. Mary, aged 13; Brownislewa, 5 years old; Veronica, 3 years old, and Cecelia, aged 8, are lying in cots at the hospital and the attending physician says there is little chance for their recovery. Melenski is also in the hospital. His arms and face were burned in the attempt to save his children.

An original autograph of Jack Sheppard, accompanied by George Cruikshank's sketch of Jonathan Wild, sold at Sotheby's for £20. A letter of Thackeray to Ainsworth went for £19 15s.

FACTS FROM CUBA.

Extermination on the Island Is Appalling.

THE DEATH RATE INCREASING.

Should the War Be Prolonged Fifteen Months the Western Half of the Island Will Be Entirely Depopulated—Why Mr. Woodford Goes to Spain—Mrs. Ruiz Will Not Negotiate With Spain.

NEW YORK, June 21.—A dispatch to The World from Havana says: Extermination on the island is an appalling, actual fact. The death rate is actually increasing. A prominent Spanish medical officer who has full knowledge of the interior says that should the war be prolonged 15 months the western half of the island will be entirely depopulated. The death rate is likely to double next month. Contagion will then mow down the people rapidly. The rains have turned the interior into quagmires in many places. The trocha is a pestilential ditch. The soldiers are suffering terribly from fever and dysentery. Little of the smallpox vaccination is effective. With foresight thousands of pacificos might have been saved by vaccination.

A sanguinary engagement occurred Wednesday at Managua, 15 miles from Havana. The insurgents attacked a column of Spanish and the latter lost heavily. The details were suppressed here. Many ambulances with wounded have arrived here.

The rebels are certainly concentrating around Havana. Trains have been fired into repeatedly.

A Spanish force, while reconnoitering, was ambushed near San Miguel. They fought bravely but were compelled to retire.

General Rivera is sick and appears indifferent as to his fate. He will assuredly be shot unless strong action is taken by the United States.

OFFICE SOUGHT THE MAN.

Mr. Woodford Accepts the Mission to Spain as a Patriotic Duty.

NEW YORK, June 21.—Stewart L. Woodford, minister to Spain, who has been appointed by President McKinley, has returned to his Brooklyn home from Washington. He expects to leave this country for Madrid about July 20. He said:

"I was not a candidate for the place, and the honor came as a complete surprise to me. I shall accept the mission and go to Spain just as I went to war—because I consider it my duty to do so. I do not want to go, but there was a gap there which I was called upon to fill, and I consider it my duty to do what was asked of me, although it will be at a personal sacrifice."

General Woodford will return to Washington before the end of this month, and will remain there about one week, conferring with the President and secretary of state.

MRS. RUIZ'S POSITION.

She Will Not Deal With Spain Under Any Conditions.

NEW YORK, June 21.—In regard to the report that Spain, through Prime Minister Canovas, has agreed to settle the claims of Mrs. Ruiz, the widow of Dr. Ruiz, against the Spanish government by the payment of \$40,000 with the understanding that the United States will not press an official claim, Mrs. Ruiz said:

"Never will I accept anything direct from the Spanish. I am in the hands of the United States government, and all overtures from Spain must be made to it. Whatever the government advises me to do I will do, but Spain must not try to deal with me."

Mrs. Ruiz said she did not know whether she would accept \$40,000 or not. She intimated that if the government was satisfied she would be.

WHAT HE THINKS HE KNOWS.

McKinley's Cuban Policy According to a Correspondent of a London Paper.

LONDON, June 21.—The Washington correspondent of The Daily Chronicle, speaking of President McKinley's Cuban policy, says:

"Spain will be permitted to exercise merely a titular sovereignty over Cuba. She will be compelled to withdraw her troops and to permit the Cubans to make their own laws, to raise their own revenue and to control their own expenditures."

President McKinley believes that Cuba must ultimately be annexed to the United States. The withdrawal of the Spanish troops will lead to a repetition of the Hawaiian incident."

LIGHTNING STRIKES IT.

Finest Library in Iowa Destroyed and a Fireman Burned.

IOWA CITY, June 21.—The library building of the state university was struck by lightning Saturday and destroyed by fire. It was a 2-story brick structure, with the library on the second floor and the physical laboratory on the first floor. The loss is \$100,000. Of this \$50,000 was in books, \$17,000 in apparatus belonging to the physical laboratory and \$33,000 on the building. The library was the best in the state.

Fireman L. M. Leek was caught in the building under a falling roof and burned to death.

SARATOGA, N. Y., June 21.—Austin Smith, aged 18, of Sandy Hill, was killed yesterday while playing base ball.

OPPOSED TO ANNEXATION.

Senator Perkins Has Something to Say About Hawaii.

WASHINGTON, June 21.—Senator Perkins, Republican, of California, is strongly disposed to join his Democratic colleague, Senator White, in opposition to the proposed annexation of Hawaii. "I am familiar with the islands," said he, "and I am very doubtful as to the wisdom of this policy. There is one point of some moment," continued Mr. Perkins, "that I have not yet seen touched upon. Within the last year or two there have been a large number of merchant vessels built on the Clyde for the Hawaiian trade. They fly the Hawaiian flag, but are English vessels. Under the proposed treaty those ships would naturally become entitled to American registry, for they would come in with the islands."

GEORGE C. PERKINS.

"There is nothing in the treaty to prevent them from coming in, nor to prevent the Englishmen from building more vessels in anticipation of annexation, and claiming American registry for all of them. In that case they would probably soon take away all of our coastwise trade and demoralize for some years our shippers."

"There is another and perhaps more interesting question involved. The annexation of Hawaii would, it seems to me, utterly ruin the beet sugar industry that is now beginning to assume considerable proportions in California and other parts of the west."

"With coolie labor the Hawaiians can produce sugar and refine it for 2 cents a pound."

POLICEMAN FATALLY INJURED.

Four Drunken Italians Resist Arrest and Cause a Riot.

SOUTH FRAMINGHAM, Mass., June 21.—Four drunken Italian laborers participated in a savage fight on Waverly street early yesterday morning. Officers Robert Trace and David Bastion tried to arrest one of the ringleaders, but all the Italians set upon them, and Officer Easton was clubbed with a beer bottle, his skull being fractured.

Shortly before 3 o'clock in the afternoon the police sounded the militia alarm on the bells and steam whistles. The militiamen who responded accompanied the police force and a number of citizens and made a house to house canvass of the Italian colony. Three men were arrested, two of whom Officer Trace identified as participants in the fight. They were taken to the police station and will be held to await the result of Officer Easton's injuries.

WILEY LEWIS CONFESSES.

May Be a Quadruple Hanging Near Montgomery, W. Va.

MONTGOMERY, W. Va., June 21.—Wiley Lewis, leader of the notorious Lewis gang of robbers and murderers, who has been in jail without sentence in the hope that he would throw more light on the murder of John Cochran, has confessed that he and Albert Viars strangled Cochran with a fish net, robbed the body and then threw it into the river, weighted.

It is probable that he will hang with Albert Viars, Clark Lewis and Jerry Brown, who will be executed next Friday.

The two latter named were convicted of the murder of Charles Gibson, who was strangled and then thrown into an abandoned coal mine. Virgie Gibson, wife of the murdered man, was convicted as an accomplice and sent to prison for 18 years.

EVACUATE THESSALY.

Advice From the Emperor of Germany Given to the Sultan.

ATHENS, June 21.—It is reported here that Emperor William has sent a telegram to the sultan requesting him to take measures for the speedy evacuation of Thessaly.

There are no indications that a settlement has been reached in the peace negotiations.

There was a conflict yesterday at Hirappetra, island of Crete, between the insurgents and the inhabitants of the town and an Italian gunboat fired two shots into the town.

GADSDEN, Ala., June 21.—Late yesterday afternoon Henry Thomas, a negro excursionist from Birmingham, fired into a party of Gadsden negroes just as the train was leaving and wounded Will Garner, a local cabman. Garner and his friends returned the fire and a general riot ensued. Thomas was shot in the back and neck and was stabbed twice in the shoulder and will die. Two other Birmingham negroes were shot and another was stabbed. Mean whiskey was the cause of the trouble.

LET US BE THANKFUL

The Tariff Talk in the Senate Nearing an End.

ADJUSTING THE DIFFERENCES.

Senators Do Not Hope to Conclude the Consideration of the Bill by the Close of the Present Week, but They Expect by That Time to Be Able to Say When They Can.

WASHINGTON, June 21.—The Republican senators in charge of the tariff bill begin to feel that the end almost is in sight. They do not hope to conclude the consideration of the bill by the close of the present week, but they expect by that time to be able to say when they can complete the work.

As a matter of fact the difficulty of adjusting differences in their own party is causing the managers more perplexity at present than is the open opposition to the bill in the senate. It has been found almost impossible to harmonize contending forces among Republicans on the tobacco and wool schedules. The differences on tobacco have been compromised, though not to the satisfaction of all concerned, and if there should be another caucus before the tobacco schedule is taken up in the senate the question is liable to be reopened there.

The wool schedule will confront the senate at the opening of the week, and it is Senator Allison's purpose to press the schedule forward to a close. Hence it will be impossible to postpone for a much longer time the settlement of the differences on this question. It is expected that if the committee should not be able to announce a determination early in the week the matter will be referred to an early caucus or a caucus may be called if the committee fixes a rate not satisfactory to the wool men. There is little doubt that an advance will be conceded by the committee but the question of interest is whether the increase will be all that the wool men demand.

The wool schedule will, of course, give rise to an animated debate, but the Democratic senators say there is no disposition on their part to needlessly prolong it. There are also numerous articles on the free list and in the "sundry" schedule which will arouse differences of opinion, and if the Republicans do not withdraw the internal revenue feature of the bill, there will be a sharp clash over this. They are practically decided, however, to retreat from these provisions. It is also practically determined that the house provision in regard to Hawaiian sugar will be continued pending the disposition of the Hawaiian annexation treaty.

For the rest, the question of reciprocity and the problem presented by the trusts in connection with the tariff are still undetermined by the Republicans themselves, but there is no doubt that there will be more or less general debate upon any propositions agreed to when presented in the senate.

The program in the house will be the same as during the past week. There will be two sessions, one today and another on Thursday. It is probable that the committee on rules will bring in a special order for the consideration of the bill appropriating money to repair the dry dock at the Brooklyn navy yard and the bill will no doubt be passed.

PROMISED PROSPERITY.

The Industrial Revival Along the Monongahela Valley Has Begun.

At Braddock, the Pittsburgh and the Rankin wire works are in full operation.

The Duquesne forge is on full for the first time in two years.

At McKeesport the National tube works put in operation additional departments yesterday and the Dewees Woolen company is reported as likely to start up in a few days.

Earthquake Shocks in California.

SAN FRANCISCO, June 21.—Two sharp and severe shocks of earthquake were felt here yesterday, the official time of the first as taken by the United States weather bureau being 1:14:04. It was followed almost immediately by a second shock. The vibrations were from west to east. Clocks were stopped, suspended lamps and decorations were broken in some places but no real damage is reported. The shocks were the most severe experienced here for many years. The earthquake was general throughout the state.

Convict Confesses to a Murder.

INDIANAPOLIS, June 21.—Last winter Fireman James Redmond was shot and killed by one of three men, who were attempting to rob a store. Two men were arrested at once for the crime and are still in jail. Yesterday it was given out that the murderer is James Burton, alias James Emmett, now in the Tennessee penitentiary for burglary. Burton was located through the Bertillon system of measurements. When charged with the crime he confessed.

ELWOOD, Ind., June 21.—A barber, named Hogan, while en route home last midnight, was fired upon in ambush and badly wounded with bird shot. His assailant is unknown.

A Fortune Spent For Advertising.

"We owe our success to advertising," said Mr. Mark Edward Irving, the advertising manager of the Mabley & Carew Co., Cincinnati. "We would as soon think of going out of business as going out of newspapers. When we started twenty years ago, this firm was 'Mabley the Clothier.' It occupied a little 18-foot front store at the corner of Lodge alley and Fifth street. We are now employing between 300 and 350 people, and are doing the largest business in our line in the West. We spend \$184,000 a year for advertising."

To Walk on Water.

PITTSBURG, June 18.—Robert Cook, the inventor of a pair of shoes by which he claims he can walk on water, was in Pittsburgh to-day making arrangements for a novel trip. He says he bet \$1,000 with John Leopold, a West Side saloonist, that he can walk on the top of the Ohio River from Pittsburgh to Cincinnati. His shoes are four feet long, six inches wide and several inches deep. Cook claims to have walked down the Hudson river from Albany to New York.

NOT A SNAP.

A Former Lexingtonian Disappointed With the Government Job Given Him.

Will Allen, the Louisville Times Washington correspondent, tells the following story on Charles Herd, who formerly lived at Lexington:

"The one appointment Senator Deboe secured around the Capitol was in the folding room, and was given to Charley Herd. The other day Herd hunted up the Senator and proceeded to get rid of a big kick. He complained that the folding room job was no such soft thing that he understood Government jobs to be, but, on the contrary, though paying only a small salary, involved continual labor."

"Why, I have been offered a better job than this in business," said Herd, in woeful accent.

"What's the matter—what do they make you do?" asked Deboe.

"Make me do? From the very first minute I put my foot in that folding room, or whatever you call it, they made me shed my coat and vest and pitch books to a fellow, who, in turn, pitched them into a wagon, and I pitched until the sweat rolled down my face in a river. I might stand this but what do you suppose they asked me this morning?"

"I give it up," said Deboe.

"Well, they wanted to know if I could carry horses?"

"So it would seem that Mr. Herd is as deeply disappointed in his job as was Sancho Panza in the pleasures of governing an island."

BUILDING ASSOCIATIONS.

Important Ruling by the Court of Appeals, But It Doesn't Affect the Local Associations.

The Court of Appeals rendered an important decision Saturday affecting the building and loan associations doing business in this State.

The style of the case, in which the judgment of the lower court is reversed, is "John Simpson vs. the Citizens' Building and Loan Association," appeal from Jefferson County. The opinion was written by Judge Hazelrigg, and was declared by such lawyers as ex-Chief Justice Pryor to be not only exceptionally able, but "unanswerable." The whole court was sitting.

The meaning of this opinion of reversal is, in a nutshell: Building and loan associations have no right to charge more than 6 per cent. interest, and those who are paying and have paid such institutions more are entitled to recover same; dues on shares of stock taken out in connection with a loan are construed to be "interest," and a part of the 6 per cent., in excess of which the association can not charge.

Judge Hazelrigg remarked after the court adjourned that he did not believe the value of stocks in building and loan associations would be affected at all by the decision.

A part of the opinion holds not only that dues on stock taken out in connection with a borrow, are part of the six per cent. interest limit, but holds that the remedial act passed by the Legislature in 1893 is unconstitutional. This act, which authorizes building and loan associations to charge debtors interest or its equivalent to not in excess of 12 per cent. per annum, was meant to put beyond question the right of these "mutual" associations to charge their borrowing stockholders more than the legal rate.

The above is taken from a dispatch from Frankfort. While the decision may be of special importance to some of the building and loan associations doing business in Kentucky, yet it will not affect in any way the associations here in Maysville. They have never charged over 6 per cent. interest, the dues are returned with the dividends at end of the year, and borrowers are not charged any premiums but are on an equal footing with other stockholders. While the decision may give some of the associations at other points some trouble, the stockholders of the local associations need not give themselves any worry over the action of the court.

The association decided upon two places, Rockcastle Springs and Tatham Springs, at one of which it will hold its meeting in 1898, the decision between these two places to be made by a committee having the matter in charge.

CINCINNATI TOBACCO MARKET.
Offerings Were Moderate Last Week—Receipts Increasing Slowly—Prices Higher.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for the week has the following:

The favorable market which we mentioned in our last report has continued through this week, and we think we can quote even higher prices. Offerings were moderate and receipts are slowly increasing, though they are not nearly as large as might be expected at this time of the year, continued dry weather having made it impossible to take down tobacco or to pack it. These conditions have now changed, and we may look for liberal shipments. There is but very little tobacco left unsold in the hands of farmers, but of course country buyers are pretty well stocked up. What is left unsold in farmers' hands is generally held at such high figures that the country speculator can not see his way out, even at the present advanced market. Old stocks in market, strange to say, is given the preference for the time being, and we want to again remind holders that the best time to sell an article is when everybody wants it. They may not want the old so much when new is offered in greater abundance. There is not much change to report with reference to tobacco setting. Of course, we hear of some planting, but remarkably little is in the field for the time of year, and a favorable season will have to set in very soon to make a crop. At this writing we are having some showers and the weather conditions seem favorable for further rainfall. The principal demand this week was for red tobacco, and in these the owners' marks were often overreached by as much as 2 and 3 cents. Manufacturers were good bidders, while speculators did their part to boom the market. A large proportion of the offerings still continue to be of the lesser grades.

Attractive Women.
Why is one woman attractive and others not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism.

NEW YORK, June 21.—William Wegeler, 53 years old, and his wife, Catherine, 39 years old, were caught in the act of making counterfeit dimes in their home in Brooklyn yesterday by United States secret service officers, who brought them to this city prisoners. A complete counterfeiting outfit was found in the house, as well as good imitations of dimes to the amount of \$10.
